

Priorities 2010

Priority Setting in Difficult Economic Times

The International Society on Priorities in Health Care (ISPHC) invites you to attend its next conference, Priorities 2010. This year's conference theme will be **Priority Setting in Difficult Economic Times**. This timely topic will allow us to squarely address the financial crisis that has challenged the ability of health systems across the globe with questions about how to prioritize and deliver affordable health care. Coming earlier than our usual meeting time in October, the meeting is scheduled back-to-back with the Harvard University Program in Ethics and Health 5th Annual International Conference which will focus this year on the ethics of procedures in priority setting. Our forthcoming conference website will provide details on both conferences.

Please save the date, submit an abstract and plan to join us at this year's meeting.

Call for Abstracts Opens October 20, 2009!

Abstract guidelines are attached to this email.
