

28.11.14

NOBEL PRIZE PARTY

Lecture on the Nobel Prize of Chemistry 2014

This year Eric Berzig, Stefan W. Hell and William E. Moerner were awarded the Nobel prize in chemistry for the development of super-resolved fluorescence microscopy. **Professor Bodil Holst** gives a lecture on the subject of this year's Nobel Prize.

After the lecture you can join the festivities and enjoy some seafood. (Give a notice if you prefer seafood or a vegetarian alternative).
