SWAT 2010 - CALL FOR PAPERS
12th Scandinavian Symposium and Workshops on Algorithm Theory
June 21-23 2010, Bergen, Norway
http://org.uib.no/swat2010/

The symposium, which alternates with the Workshop on Algorithms and Data Structures (WADS), is intended as a forum for researchers in the area of design and analysis of algorithms and data structures. We invite submissions of papers presenting original research on algorithms and data structures in all areas, including but not limited to approximation algorithms, parameterized algorithms, computational biology, computational geometry, distributed algorithms, external-memory algorithms, graph algorithms, online algorithms, optimization algorithms, parallel algorithms, randomized algorithms, string algorithms and algorithmic game theory. Contributors must submit their papers using the Easychair system. Submissions must be of at most 12 pages using 11 point or larger font and with reasonable line spacing and margins. Additionally a clearly marked appendix may be included; this appendix will not be regarded as part of the submission and will be considered only at the discretion of the program committee. Simultaneous submission to other conferences with published proceedings is not allowed.

Important dates:
Submission of Papers: February 1, 2010
Notification of Acceptance: March 24, 2010
Final Version due: April 10, 2010

Program Committee:
Ittai Abraham, The Hebrew University of Jerusalem
Pankaj Agarwal, Duke University
Hans Bodlaender, University of Utrecht
Gerth Brodal, Aarhus University
Guy Even, Tel Aviv University
Fabrizio Grandoni, University of Rome
Roberto Grossi, University of Pisa
Haim Kaplan, Tel Aviv University (chair)
Juha Karkkainen, University of Helsinki
Matya Katz, Ben-Gurion University
Valerie King, University of Victoria
Christos Levcopoulos, Lund University
Stefano Leonardi, University of Rome
Moshe Lewenstein, Bar-Ilan University
Ulrich Meyer, Goethe University Frankfurt
Rob van Stee, Max Planck Institut Informatik
Martin Strauss, University of Michigan
Maxim Sviridenko, IBM Watson Research
Chaitanya Swamy, University of Waterloo
Robert E. Tarjan, Princeton University
Yngve Villanger, University of Bergen
Neal Young, University of California, Riverside
