

# IFT-Posten

Nytt fra Institutt for fysikk & teknologi  
Universitet i Bergen

## Instituttlederens leder

Årets første IFT-posten kommer sammen med store snømengder og litt trafikkaos, men ellers er vi tilsynelatende i god gjenge på instituttet. Semesteret har startet og de aller fleste kursene hadde sin første forelesning denne uken.

Nå er vi også godt i gang med å tenke på jubileet vårt. Som kjent fyller instituttet 75 år 18. mai, og vi har reservert det store auditoriet på VilVite til festseminar fredag 24/5. Der tenker vi at det skal bli et spennende program med interne og inviterte foredragsholdere med bred og populærvitenskapelig kompetanse som setter instituttets forskningsaktivitet de siste 75 år i perspektiv. Samme kvelden blir det jubileumsfest på hotell Grand Terminus med historisk perspektiv, underholdning, god mat og drikke og kanskje litt faglig innhold. Der blir det også rom for å ta med sin partner, muligens med en liten egenandel.

I den nærmeste tiden trenger vi hjelp til å finne gode foredragsholdere som kan belyse hele instituttets bredde før og nå, og dere kan også gjerne komme med forslag til gjester vi burde huske å invitere. Vi har selvfølgelig allerede pensjonistene våre og alle ansatte på invitasjonslisten. Ellers er dere svært velkommen til å melde dere til større eller mindre oppgaver i forbindelse med arrangementene. Vi trenger folk til seminarkomite, festkomite og til å skrive om instituttets historie i IFT-posten.

Ha en riktig god helg!  
Kjetil

# HySchool Days 2024

### NETWORKING EVENT (NTNU, TRONDHEIM)

The primary objective of HySchool is to contribute to the global energy transition by enhancing the quality of Norwegian doctoral training on the use of hydrogen and hydrogen-based fuel as energy carriers in society. PhD students from all universities and university colleges in Norway can be admitted to HySchool, provided research on hydrogen and/or hydrogen-based fuels is an important part of the doctoral project.

## AAREBROTFORELESNINGEN

Årets Aarebrot forelesningen skal holdes av økonom **Karl Ove Moene**.

De 200 minuttene han har til rådighet under Aarebrotforelesningen skal han bruke på å ta opp en generell utfordring han brenner for:

– Både for Norge og andre land er spørsmålet: Etter 100 år med markedsorientert sosialisme for materielle forbedringer, hva vil nå skje?

STED: Kvarteret og på nett
