Lilya is the first woman awarded.

Congratulations!

Department seminar

On Thursday 17 November at 14.15 Marc Rehmsmeier will give the following lecture:

It's not the size that matters but what you do with it. DNA sequence principles in the era of genome-wide datasets

Abstract: Genome-wide data is being generated at an alarming rate. But what does it all mean? In this talk I will ponder on how DNA sequence principles can make sense of this evergrowing mass.

Cake and soft drinks will be served in the lobby in 2nd floor from 13.45.

Place: Store auditorium

Funding (Meltzer, University and more)

The application database for Meltzerfondet and Universitetsfondet is now open. Meltzerfondet is providing funds for research projects, research prizes, travel funds for researchers, and project scholarships to students and PhD candidates.

Regulations and forms: <http://meltzerfondet.no/index.htm>

Application deadline: 1 December at 13.00

Universitetsfondet (Bergen University Foundation) is providing funds for projects regarding mediation and publishing research results, as well as funds for scientific conference and workshop arrangements. More information: <http://www.uib.no/fond/>
