New employees

Boris Lenhard
Professor II, Bioinformatics group

Federico Mancini
Associate Professor II, Program development group

Vacant position:

Research fellow (PhD candidate) in Informatics (computer security, coding theory and cryptography)

<http://www.jobbnorge.no/job.aspx?jobid=79636>

Deadline: 15 January 2011

See all vacant positions here (announced earlier): <http://www.uib.no/ii>

Services during Christmas holiday

The office phone will be closed on 26 December. From 27-30 December some of the administrative staff will be available.

Linux technical support will be provided as usual between 28 and 30 December. On 27 December, you must contact Brita.

All travel claims, invoices and vouchers must be submitted to Tor Bastiansen no later than Friday 23 December if you want them to be part of the 2011 accounts

Please make sure that you have sent a mail to ekspedisjonen@ii.uib.no or that you have informed Marta if you plan to be out of office during Christmas.

Registrations in Cristin

The deadline for registrations in Cristin (Current Research Information System in Norway) is 15 January, but we encourage everyone to start the registrations now.

If the journal is not registered, you may suggest additions within **31 of December 2011** at the following webpage: <http://dbh.nsd.uib.no/kanaler/>

You must register your publications with the organizational unit that is your employer (= that pays your salary). If you are on a research stay abroad or if you have your office at another department (CBU, SARS...) but your salary comes from the Department of Informatics (UiB), you must choose the Department of Informatics as your unit.

Registration of scientific publications will be transferred directly from the database ITAR, but these must be controlled. The transfer is a little bit delayed, so articles published late in 2011 must be registered manually

Articles in conference proceedings are normally not transferred (exception: articles in LNCS classified as scientific journal). Registration of such articles must be done in two steps:

- 1) Register the proceeding under "academic anthology", in the category: "Book". (Check that the book is not already registered)
- 2) Register the article as "Academic chapter/article" under "Part of a book/report"

For more information see: <http://www.cristin.no/english/>

Enjoy!

Gingerbread competition

For those who were not attending last week's cake party, I would like to repeat that the winner of the gingerbread competition was the Bioinformatics group. Congratulations! And thanks to all groups for excellent contributions, you can still enjoy the whole gingerbread city in the lunch room. And you are free to eat it as well!

Thank you!

This is my last II-nytt – and Wednesday is my last day at II. I am not going to repeat my speech, but I just have to say again that I have really enjoyed the years at the department. I will miss you a lot. Thanks for marvelous presents and a great party last Friday. But most of all thanks for being such wonderful colleagues
