

University of Bergen
Faculty Of Mathematics,
Admission Office.

MOTIVATION LETTER FOR ADMISSION

My name is Olabode Daniel Oluwasegun and I attended university of Ibadan, Ibadan, Oyo state, Nigeria. I completed a Bachelor Degree in Physics with a GPA is 5.7 On a 7.0 grade point scale. I have a good communication skill in English Language which is the Language of communication at my university.

During my four (4) years at the university in Nigeria, I studied a lot of Mathematical course which I passed with good grades .These has made me realize how good I was in applied and computational mathematics. Since I have a quite strong academic background in Mathematics, I believe that master course in Applied and Computational Mathematics perfectly suits my profile and career prospects. My ultimate goal is to work with research base groups in Applied and Computational Mathematics sector as well as local universities in order to improve research and human resources capacity building through training.

Due to my financial situation I was not able to further my studies in my country or abroad after I completed my Bachelor Degree (B.sc) in 2015. So I did my best to look for jobs and also engage in some entrepreneur businesses in order to save up funds for my M.sc studies abroad, that's why there has been a gap of about 5years in my academic career. It took a lot of discipline and determination to be able to save up money because I have always have a dream to study abroad in a better academic environment. The knowledge I gain on this studies at the university of Bergen I plan to transfer to my home country where I intend contribute to the public sector or work in the university.

At the end I would like to point out that I am very determined to make the most out of the program, I believe that being a student in your university would not only empower my career development but would give me the framework to utilize my full potentials. Moreover, as a master student at your university, I can benefit from numerous challenging career opportunities.

Once again I am grateful for considering my application and look forward to a favorable reply.

Yours Sincerely,

Olabode Daniel
